Subject: RE: January WSA Project Review

Dear Val,

I plan to join via AUDIO from home. Though I may leave (quietly) by 1:00 am my time, I would appreciate to receive presentation materials beforehand.

Best regards,
Kohji

Subject: January WSA Project Review

Hi all:
The first 2002 WSA project review will take place from 8:30 am - 12 pm on Monday, January 28th. Videoconference room JRC 43-1A has been reserved for Richmond participants. This review will cover the current status of the Cancer, CVD, and COPD projects. A copy of the agenda is attached for your reference. If your schedule permits, please feel free to attend.

If you do plan to attend, please let me know so that I can have the appropriate number of presentation materials available.

FYI - Future 2002 project review dates are being set for the year and will be circulated in the near future.

Thanks,
Valerie

Barbara: Please circulate this to any other individuals at INBIFO/CRC whom you think might be interested in attending. Thanks.
Mingda/Kohji: Given the time difference, if you want to consider participating via audio only, that can be arranged.
